THE DIGITAL TURN AND INTERCULTURAL SOCIETIES: ETHICS, ACCESSIBILITY AND DEMOCRACY

From 23 to 26 June 2025

In Europe, two factors are intensifying their impact on social life and democratic dynamics: on the one hand, migratory phenomena, and on the other, a massive spread of digital technologies. It is worth questioning the cross-impact of these factors and their influence on the resilience of democracies, the disrupting risks and the transforming opportunities that emerge in the context of societies experiencing diversity, looking towards an inclusive and solidarity-based future.
